

Table Lamp

INSTRUCTION MANUAL

Safety Warnings

- This product is only suitable for connection to a 240V~50Hz supply in accordance with current IEE wiring regulations. It is for indoor use only, and not suitable for a bathroom location.
- This fitting is a Class II, Double Insulated product  and does not require an Earth. Live or Neutral **must not** be connected to Earth.
- Under no circumstances must this table lamp be covered with any material as this could pose a safety hazard. It must be used on a stable, flat surface. Do not plug into the mains until your lamp is fully assembled.
- This product is not suitable for persons under 14 years of age.
- Never fit bulbs of a higher wattage than those specified on the label (as these may cause overheating and damage the fitting).
- The lamp must be protected by a 3 amp fuse in the mains plug.
- If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person.
- If you are in any doubt about your competence please consult a qualified electrician.
- If any modification is made it will invalidate the warranty and may render the product unsafe.
- Allow 10 minutes to cool before replacing, adjusting or cleaning.
- Clean with a dry cloth only. Do not use liquid or abrasive cleaners on this product.

Assembly/ User Instructions

Before you start

Please read these instructions carefully before fitting and retain for reference. Check the packaging and make sure that you have all the required parts. Follow each assembly step in order to prevent incorrect assembly. Ensure that the product is fully assembled as illustrated before use.

Some LED bulbs cannot be dimmed. Please check with your retailer before purchasing LED bulbs.

These assembly diagrams are intended as a guide – if in doubt consult a qualified electrician.

1. Carefully unpack your lamp, and place on a stable, flat surface.
2. Install the bulb (3), being careful not to touch it with your bare hands – use gloves or a cloth. **NOTE: Never fit bulbs of a higher wattage than that specified on the label.**
3. Secure the shade (1) with the shade ring (2) using the shade ring tool.
4. Screw the adjustment handle (4) onto the back of the head. **NOTE: Only the tip of the rod is intended to be used to make the head adjustments.**
5. Plug in and operate the on/off dimmer by touching the lamp base (one touch low light level, second touch brighter, third touch brightest setting, fourth touch off).

If your lamp will not illuminate, please check the bulb, the 3 amp fuse in the plug and ultimately check the relevant fuse in your Fuse Box. If unsuccessful please consult your Retailer.
