Lifetime (h): 15000
Energy Class: F

Canis is a classic round downlight for indoor use with a metal frame that fits beautifully into any home. Furthermore, Canis comes with a GU1 bulb.

The downlight emits a functional white light of 4000 K which is particularly suitable in the kitchen, hallway or corridor, where there is a need for good, practical lighting. The dimmable function allows you to adjust the light to different situations and needs. This way, you can quickly and easily change the light from a practical work light to a more relaxing and atmospheric light. Furthermore, the downlight is adjustable, making it possible to direct the light to where there is a need for extra light.
