

## KIRA

The Kira outdoor wall light delivers crisp, cool white lighting with a built-in motion sensor to combine practical security with a slimline, architectural design. Refined, die-cast aluminium body, finished in dark grey, houses an integrated PIR sensor and produces a forward-facing beam with a subtle halo glow around the fitting. The cool white 4000K LED output provides clear visibility across entrances, walkways and external walls. PIR sensor has a 9m detection range and adjustable time and lux settings, with a manual override mode for continuous lighting when required.
