

ATLANTIS

High-performance Atlantis outdoor LED floodlight with PIR sensor. Honeycomb lens design reduces glare whilst delivering powerful, even illumination. Provides an output of 3100 lumens of warm white (3000K) light making it well suited to driveways, patios, gardens and outdoor spaces where visibility and security are required. Integrated PIR sensor detects movement over a fixed range of 18m away and has a wide 180° coverage zone. Customizable PIR settings allow the user to control the light duration (from 10 seconds to 8 minutes) and LUX settings.
